It seems like the elites and their pawns are trying to unify all groups with the exception of Muslims. This means Christians, zionists, hindus, Democrats, Republicans etc. I could be wrong that there isn't an effort to unify Democrats and Republicans. Important

The Stone of Scone in the Perth Museum in Perth Scotland is not the stone Jacob slept on in Genesis 28:18.

Manetho a Historian in the 4th B.C.E. wrote about Osarseph a rebel who was a Priest in Hyksos in Ancient Egypt that rebelled against King Amenhotep III who lived in the 15th century B.C.E., he relocated to Jerusalem and later returned to plunder Ancient Egypt. Manetho does not link Osarseph to Prophet Moses. Whoever Osarseph was whether he was a mythological figure or not, he was not Moses. The alleged King at the time of Prophet Moses was King Ramses II who lived in the 13th century B.C.E.

Couldn't Prophet Muhammad know religion better than a world leader like Vladimir Putin who is a Christian?

In the 1,400s in England, the Synod of Oxford led by Archbishop Thomas made it illegal to read a Bible without the permission of a Bishop.

Because the countries in the Guld Cooperation Council are viewed in many countries by the public as "puppets" of America, Britain, France, and Germany, this messes it up where the Gulf Cooperation Council countries are not puppets. The countries in the Gulf Cooperation Council are equal to America, Britian, France, and Germany. What is happening during the Iran war is that the countries in the Gulf Cooperation Council re being viewed as doing what America, Britian, France, and Germany want because the Gulf Cooperation Council us being viewed as having interest in selling oil. Important

If the genocide in Gaza was not happening in 2026, the war in Iran in 2026 probably would not have happened.

The genocide in Gaza backfired for the zionists because it showed that Iran will come to the people of Gaza's defense and what it has done so far is help bolster Iran.

President Trump did what I wanted when he caused a blockade in Cuba in March 2-26 after America took control of Venezuela.

The No Kings protest in America is preventing the end of the Iran war.
